(AFC) and the Board of Directors was updated on the draft, unaudited accounts in February 2016. In this context, an overview of the final results and a comparison of the draft figures is provided. It is noted that minor adaptations of immaterial nature were made. It is also explained that the financial statements were prepared in accordance with International Financial Reporting Standards (IFRS). GLEIF also satisfied the criteria of new requirements set out in the Swiss Code of Obligations (CO).

The Chair of the AFC, Robin Doyle, reports on the AFC meeting on 13 April 2016 and related introduced immaterial changes stating that the 2015 financial statements have been considered appropriate.

A short discussion takes place. The members agree with the external auditor, who is present for this agenda item, to make some wording adaptions to the financial statements.

- Report of the external auditor

The external auditor highlights the key matters related to the 2015 external audit. EY confirms the appropriateness of the financial statements stating there were no errors found in the financial statements, as well as not any control deficiencies, and not any evidence of bias in the accounting judgments identified. The auditor also confirms its independence as external auditor.

- Accreditation Update

The CEO provides a status update on accreditation and presents a recommendation for four accreditation plans, supported by the Head of Business Operations. It is informed that some of the applicants are new LOUs. The members discuss the reports.

Since applications are submitted to GLEIF on a regular basis, and likely earlier than quarterly Board meetings are held, the CEO proposes that accreditation plans be approved by circular letter unless a member asks for a meeting as stipulated in art 23 of the Statutes. One member prefers in person meetings on all accreditation plans. The CEO underlines GLEIF’s priority on accreditation in the first half of 2016 and that regular approvals by the Board would be important allowing applicant LOUs to enter into the requirements check phase undertaken by GLEIF by signing the Master Agreement (step 1 of accreditation phase). The member agrees requesting appropriate amount of time to review the plans.

When approving LOUs for the accreditation process (step 1) it is mentioned during the discussion of the members, among other points, that on the one hand, equal treatment and consistency on the evaluation criteria, and on the other hand, cost-effectiveness, commercial feasibility and sustainability, market context, and a case-by-case evaluation would be important.

The ROC Chair underlines the importance to generally encourage LOU application at GLEIF and to expand the overall volume of LEIs.

- Internal Audit

The CEO, supported by the Head of Compliance and Audit, informs on the timeframe of an internal audit for 2016 in the areas of Third Party Services/Purchasing, Finance Internal Controls, IT security and GLEIF Policies and Procedures.
