LEI Search 2.0 (beta)

Label	Attributes
Name	LEI Search 2.0 (beta)
Tag Line	Search for LEIs, corresponding legal entity reference data (LE-RD) and relationship reference data which defines a relationship between two or more legal entities via an interface and display the result set.
Description	The search functionality allows to search by: <ul style="list-style-type: none"> - LEI code. - Keywords within LE-RD and relationship data. - Keywords and range queries within specific fields of LE-RD and relationship data. - Alternative identifiers (e.g. BIC). - Registration Authority and Entity Legal Form codes.
Service Version	v 1.0
Service Target	Availability: GLEIF Website target = 99.9%
Website	WebSite path: GLEIF > Global LEI Index > LEI Search 2.0 Link: https://search.gleif.org/

LEI Search 1.0

Label	Attributes
Name	LEI Search 1.0
Tag Line	Search for LEIs and corresponding legal entity reference data (LE-RD) via an interface and display and download the result set.
Description	<p>The search functionality allows to search by:</p> <ul style="list-style-type: none"> - LEI code. - Keywords within LE-RD. - Keywords and range queries within specific fields of LE-RD. <p>The result set returned from a search can be downloaded as XML (Common Data File Format), Excel, CSV and json files.</p>
Service Version	v 1.0
Service Target	Availability: GLEIF Website target = 99.9%
Website	<p>Website path: GLEIF > Global LEI Index > LEI Search</p> <p>Link: https://www.gleif.org/en/lei/search</p>

Concatenated Files

Label	Attributes
Name	Concatenated Files
Tag Line	GLEIF publishes the updated GLEIF Concatenated Files daily as a result of the concatenation of individual files uploaded by the LEI issuing organizations.
Description	<p>Via an interface the LEI issuing organizations are required to upload the LEI and legal entity reference data (LE-RD) files to the Global LEI Repository daily. The files contain all LEIs issued to legal entities and related LEI reference data. Data is represented in the Common Data File Format.</p> <p>GLEIF aggregates all files from all LEI issuers and publishes daily the updated GLEIF Concatenated Files.</p>
Service Version	v 1.0
Service Target	<p>Availability: GLEIF Website target = 99.9%</p> <p>Processing time: Updated GLEIF Concatenated Files available from 12:00 UTC+0 each calendar day (i.e. also weekends, holidays etc.).</p>
Website	<p>Website path: GLEIF > LEI Data > GLEIF Concatenated File</p> <p>Link: https://www.gleif.org/en/lei-data/gleif-concatenated-file/download-the-concatenated-file#</p>

Challenge LEI Data

Label	Attributes
Name	Challenge LEI Data
Tag Line	Challenge the data of any LEI and legal entity reference data (LE-RD) of the Global LEI Repository on the GLEIF website.
Description	<p>GLEIF provides a mechanism for any third party to challenge the data of any LEI and LE-RD of the Global LEI Repository. A data challenge that is submitted for a specific LEI (or LE-RD) will be forwarded to the corresponding managing LEI issuer. The actual resolution of data challenges is a service provided by the LEI issuer.</p> <p>Different challenges can be submitted, which the challenging user must specify alongside an optional comment. The available types are:</p> <ul style="list-style-type: none"> - Entity details. - Address. - Registration details.
Service Version	v 1.0
Service Target	<p>Availability: GLEIF Website target = 99.9%</p> <p>Time for the LEI issuing organization to manage the challenge: 10 days</p>
Website	<p>Website path: GLEIF > LEI Data > Challenge LEI Data</p> <p>Link: https://www.gleif.org/en/lei-data/challenge-lei-data</p>

Manage Data Quality

Label	Attributes
Name	Manage Data Quality
Tag Line	Monitoring and ensuring high LEI data quality.
Description	<p>GLEIF is responsible for monitoring and ensuring high LEI data quality. In cooperation with its partners in the Global LEI System, GLEIF focuses on further optimizing the quality, reliability and usability of LEI data empowering market participants to benefit from the wealth of information available with the LEI population.</p> <p>GLEIF makes available the following monthly data quality reports:</p> <ul style="list-style-type: none"> - Global LEI Data Quality Reports: These reports demonstrate the overall level of data quality achieved in the Global LEI System. - LEI Issuer Data Quality Reports: These reports analyze the level of data quality achieved by the individual LEI issuing organizations. <p>The GLEIF data quality management program ensures that the LEI remains the industry standard best suited to providing open and reliable data for unique legal entity identification management.</p>
Service Version	v 1.0
Service Target	<p>Availability: GLEIF Website target = 99.9%</p> <p>Update frequency for data quality reports: Monthly</p>
Website	<ul style="list-style-type: none"> - <i>Data Quality Management</i> Website path: GLEIF > LEI Data > GLEIF Data Quality Management Link: https://www.gleif.org/en/lei-data/gleif-data-quality-management - <i>Global LEI Data Quality</i> Website path: GLEIF > LEI Data > GLEIF Data Quality Management > About the Data Quality Reports > Download Global LEI Data Quality Report Link: https://www.gleif.org/en/lei-data/gleif-data-quality-management/about-the-data-quality-reports/download-data-quality-reports - <i>LEI Issuer Data Quality</i> Website path: GLEIF > LEI Data > GLEIF Data Quality Management > About the Data Quality Reports > Download LEI Issuer Data Quality Reports Link: https://test5.gleif.org/en/lei-data/gleif-data-quality-management/about-the-data-quality-reports/download-lei-issuer-data-quality-reports

LEI Look-up API

Label	Attributes
Name	LEI Look-up API
Tag Line	API to directly access the complete LEI data pool in real time.
Description	The LEI Look-up API provides developers with the opportunity to directly access the complete LEI data pool in real time and to perform on-demand checks for changes to specific LEI records in a convenient, easy-to-read format.
Service Version	v 2.0
Service Target	Availability: 97.7 % Processing time: < 1 sec
Website	Website path: GLEIF > LEI Data > GLEIF LEI Look-up API Link: https://www.gleif.org/en/lei-data/gleif-lei-look-up-api/access-the-api

Code Lists

Label	Attributes
Name	Code Lists
Tag Line	Maintain code lists referenced in Common Data File Formats.
Description	This service provides a standard process for identifying and incorporating updates to code lists in the Common Data File (CDF) formats. Examples of code lists include the registration authority list referenced for the Registration Authority and Validation Authority fields of LEI CDF file format and the Relationship Type field referenced in the Relationship Record CDF file format. It also includes the Corroboration Compliance List code list, that provides information about the minimum expected corroboration level of an LEI corresponding to the declared ELF code as a legal form. Breach is defined, when an LEI declares a lower corroboration level than expected.
Service Version	v 1.1
Service Target	Availability: 99.9%
Website	<p>- <i>Registration Authorities List</i> Website path: GLEIF > About LEI > GLEIF Registration Authorities List Link: https://www.gleif.org/en/about-lei/gleif-registration-authorities-list</p> <p>- <i>ISO 20275: Entity Legal Forms Code List</i> Website path: GLEIF > About LEI > ISO 20275: Entity Legal Forms Code List Link: https://www.gleif.org/en/about-lei/iso-20275-entity-legal-forms-code-list</p> <p>- GLEIF Accepted Legal Jurisdictions Code List Website path: GLEIF > About LEI > GLEIF Accepted Legal Jurisdictions Code List Link: https://www.gleif.org/en/about-lei/code-lists/gleif-accepted-legal-jurisdictions-code-list</p>

Golden Copy Files

Label	Attributes
Name	Golden Copy Files
Tag Line	The Golden Copy Files, in addition to the GLEIF Concatenated Files, provide a distinct means to access, and explore the information included within, the Global LEI Index.
Description	<p>The Golden Copy Files, together with the delta files, provide frequently updated (three times daily) information on LEIs and related reference data in a ready-to-use format that ensures:</p> <ul style="list-style-type: none"> - Data does not contain technical duplicates. - All LEIs ever published in a GLEIF Golden Copy File version, as well as all new LEIs published by the LEI issuers since the previous release of a Golden Copy File, are included in the file. - Enriched reference data provides deeper insight into the global market place.
Service Version	1.0
Service Target	<p>Availability: 99.9% (up to 25 parallel users)</p> <p>Update frequency: 3 times a day (delivered by 02:00 for the 00:00 file, by 10:00 for the 08:00 file and by 18:00 for the 16:00 file, all UTC+0)</p>
Website	<p>Website path: GLEIF > LEI Data > Preview of GLEIF Golden Copy and Delta Files</p> <p>Link: https://www.gleif.org/en/lei-data/gleif-golden-copy/download-the-golden-copy#/</p>

How to Get an LEI

Label	Attributes
Name	How to Get an LEI
Tag Line	Find your preferred business partner by searching the LEI issuing organizations - also referred to as Local Operating Units (LOUs).
Description	<p>A legal entity is not limited to using an LEI issuer in its own country; instead, it can use the registration services of any LOU that is accredited and qualified to validate LEI registrations within its authorized jurisdiction(s). The dedicated GLEIF website page titled 'Get an LEI: Find LEI Issuing Organizations' allows identifying all GLEIF-accredited LEI issuers that offer LEI services per jurisdiction. Accredited LEI issuers have successfully completed the GLEIF accreditation program for the associated jurisdictions.</p> <p>Additional information about each LOU is provided (i.e. URL, LEI code, recent data quality report, and the accreditation date).</p>
Service Version	v 1.0
Service Target	Availability: GLEIF Website target = 99.9%
Website	<p>Website path: GLEIF > About LEI > Get an LEI: Find LEI Issuing Organizations</p> <p>Link: https://www.gleif.org/en/about-lei/get-an-lei-find-lei-issuing-organizations</p>

LEI Business Statistics

Label	Attributes
Name	LEI Business Statistics
Tag Line	Access figures, statistics and graphs on the global LEI population.
Description	<p>This service makes available key facts, figures and statistics on the global LEI population via interactive graphs.</p> <p>They provide information on the characteristics of the LEIs issued to date.</p> <p>The user may choose to view each graphic for all LEIs issued or for validated LEIs for operating entities. Click on each graphic, or select 'display type' for further detail.</p> <p>The service offers the possibility to download the data associated with each graphic in CSV format.</p> <p>This service also makes available the Global LEI System Business Report that is published quarterly, which highlight key developments relevant to the adoption of the LEI. Specifically, the reports assess annual growth and renewal expectations, evaluate the level of competition between LEI issuing organizations operating in the Global LEI System and analyze LEI renewal rates and reference data corroboration.</p>
Service Version	v 1.0
Service Target	<p>Availability: GLEIF Website target = 99.9%</p> <p>Update frequency:</p> <ul style="list-style-type: none"> - Monthly for LEI Statistics. - Quarterly for Global LEI system Business Reports.
Website	<p>- <i>LEI Statistics</i></p> <p>Website path: GLEIF > LEI Data > Global LEI Index > LEI Statistics</p> <p>Link: https://www.gleif.org/en/lei-data/global-lei-index/lei-statistics</p> <p>- <i>Download Global LEI System Business Report</i></p> <p>Website path: GLEIF > LEI Data > Global LEI Index > Download Global LEI System Business Reports</p> <p>Link: https://www.gleif.org/en/lei-data/global-lei-index/download-global-lei-system-business-reports/</p>

GLEIF Service Reporting

Label	Attributes
Name	GLEIF Service Reporting
Tag Line	Access service performance reports, statistics and actual data that result from GLEIF services.
Description	<p>GLEIF is committed to ensuring transparency on its performance with regard to the services it provides. We therefore, make available for download monthly service reports evaluating overall GLEIF performance. In addition, we publish daily indicators on the availability of GLEIF services.</p> <p>The GLEIF service report is published monthly on the 10th business day of the month. Historical monthly reports are also available for downloading as PDFs in the same page.</p> <p>Daily Service Availability provides real time availability on services delivered by GLEIF. By displaying traffic lights indicators (green or red), the actual status of the services can be checked online.</p>
Service Version	v 1.0
Service Target	<p>Availability: GLEIF Website target = 99.9%</p> <p>Update frequency:</p> <ul style="list-style-type: none"> - Monthly for GLEIF Service report: on the 10th business day of the month - Daily Service Availability: every minute
Website	<ul style="list-style-type: none"> - <i>Service Availability</i> Website path: GLEIF > About GLEIF > GLEIF Service Performance > Daily Service Availability Link: https://www.gleif.org/en/about/gleif-service-performance/daily-service-availability - <i>Download Service Report</i> Website path: GLEIF > About GLEIF > GLEIF Service Performance > Download Service Report Link: https://www.gleif.org/en/about/gleif-service-performance/download-service-reports/

Service Desk

Label	Attributes
Name	Service Desk
Tag Line	Central point of contact for GLEIF topics. Contact via email at info@gleif.org
Description	GLEIF can be contacted via a website form or email for requests of information and feedback. GLEIF also provides specific email addresses allowing interested parties to log queries relevant to specific topics.
Service Version	v 1.0
Service Target	Availability: GLEIF Website target = 99.9% Processing time: Within 5 business days
Website	Website path: GLEIF > Contact > Feedback Link: https://www.gleif.org/en/contact/feedback

Regulatory Use of the LEI

Label	Attributes
Name	Regulatory Use of the LEI
Tag Line	An overview of current and proposed regulatory activities including use of the LEI.
Description	<p>It is the prerogative of the authorities acting in individual jurisdictions to mandate the use of the LEI. GLEIF closely monitors initiatives relevant to legal entity identification in regulatory reporting and supervision.</p> <p>A regularly updated overview provides the current and proposed regulatory activities including the use of the LEI.</p>
Service Version	v 1.0
Service Target	Availability: GLEIF Website target = 99.9%
Website	<p>Website path: GLEIF > About LEI > Regulatory Use of the LEI</p> <p>Link: https://www.gleif.org/en/about-lei/regulatory-use-of-the-lei</p>

Standards for the Global LEI System (GLEIS)

Label	Attributes
Name	Standards for the Global LEI System (GLEIS)
Tag Line	Develop, set and maintain worldwide uniform operational, legal and technical standards for GLEIF, the Global LEI System and its participants.
Description	<p>The setting of standards covers the development and maintenance of uniform operational and technical standards for the Global LEI System. Developments of such standards are accomplished in an open process that is broadly inclusive of representatives of all relevant stakeholders (including the public). It is the explicit goal of GLEIF to make all standards and protocols available to the public.</p> <p>This service is in charge of development of standards for, e.g. branches, funds, individuals, corporate actions, etc.</p> <p>Standards must be in accordance with core governing documents (e.g. Charter of the LEI Regulatory Oversight Committee, GLEIF Statutes, Financial Stability Board Recommendations, etc.).</p> <p>The Master Agreement, which is the contractual framework governing the relationship between GLEIF and LEI issuing organizations, requires all LEI issuers to adhere to the standards that are developed and adopted for use in the Global LEI System.</p>
Service Version	v 1.0
Service Target	Availability: GLEIF Website target = 99.9%
Website	<p>Website path: GLEIF > About LEI > Common Data File Formats</p> <p>Link: https://www.gleif.org/en/about-lei/common-data-file-format</p>

Email Notifications on Technical Updates

Label	Attributes
Name	Email Notifications on Technical Updates
Tag Line	GLEIF regularly issues email notifications providing updates on technical developments relevant to the LEI.
Description	<p>Specifically, the email notifications will address the following topics:</p> <ul style="list-style-type: none"> - Changes to the Common Data File formats including the XML schema definitions and the business rules for creating and updating XML files (state transition rules). - Changes to the International Organization for Standardization (ISO) 20275 Entity Legal Form (ELF) code and the GLEIF Registration Authorities List. - Changes relevant to the GLEIF Concatenated Files, the GLEIF LEI 'Look-up' API and the LEI search tool. - Answers to frequently asked technical questions directed at GLEIF. <p>Normally, at least one email notification is issued every six months. In the event of major or urgent developments, the publication frequency will be increased. To subscribe to the GLEIF email notifications on technical updates, please register with your email address.</p>
Service Version	1.0
Service Targets	Availability: 97,7 % (Monday – Sunday 00:00 – 24:00)
Website	<p>Website path: GLEIF > LEI Data > Email Notifications on Technical Updates</p> <p>Link: https://www.gleif.org/en/lei-data/email-notifications-on-technical-updates</p>

Social Media

Label	Attributes
Name	Social Media
Tag Line	Publish, monitor and moderate social media content on the LinkedIn and Twitter platform as well as on GLEIF's Blog webpage.
Description	<p>Allow followers on social media platforms to receive up-to-date information without the need to search the GLEIF website for updates.</p> <p>By engaging in social media, GLEIF makes available to the public timely and comprehensive information on LEI developments and GLEIF activities and encourages direct interaction with the organization.</p>

LOU Annual Accreditation Verification

Label	Attributes
Name	LOU Annual Accreditation Verification
Tag Line	GLEIF's process of re-verification of the LEI issuing organization's compliance with expected internal controls within its LEI operations.
Description	<p>GLEIF will request from the LEI issuing organization (also referenced as 'Local Operating Unit' or LOU) certain documentation and evidence of compliance with expected internal controls which need to be in place for an accredited LOU to be operational.</p> <p>This exercise is based upon the current status of internal controls that were verified as part of the LOU's initial accreditation and as amended in the event under the accreditation change process.</p> <p>The annual accreditation verification process is executed on or after the anniversary date of the LOU's date of accreditation as documented on their accreditation certificate.</p> <p>Using a template provided by GLEIF, the LOU verifies the status of each processing area as mentioned in the Accreditation Checklist. For areas where significant changes have occurred, the LOU documents the nature and extent of the changes and how it/they effected LEI processing. Supporting documentation must be provided as additional information regarding the change(s).</p> <p>GLEIF reviews this information and assesses the overall impact of any changes noted in the internal controls. GLEIF determines if the changed internal controls still meet the required control standard and advises the LOU as to whether any remediation action is required.</p>
Service Version	v 1.1
Service Target	<p>Availability: GLEIF Website target = 99.9%</p> <p>Processing time:</p> <p>LOU:</p> <ul style="list-style-type: none"> - Provide all required materials within 30 LOU business days of GLEIF request to initiate the annual verification process. - In case the provided materials need to be amended, the LOU makes available the requested documentation within 5 LOU Business Days <p>GLEIF: Review LOU submission within 30 GLEIF business days of receipt of a complete set of materials.</p> <p>Update frequency:</p> <ul style="list-style-type: none"> - Yearly by the following 3 months after the anniversary date of LOU accreditation. The scope of the LOU Annual Accreditation Verification will be always the last operational year from the anniversary date. - The LOUs having performed at least the LOU Annual Accreditation Verification once and having 9 clean SLA reports (no breaches) in the 13 months before the LOU's accreditation anniversary date, could be asked to be subjected to the LOU Annual Accreditation Verification with a reduced scope. The decision is to the sole discretion of GLEIF.

Certification of LEI Mapping

Label	Attributes
Name	Certification of LEI Mapping
Tag Line	The Certification program ensures that organizations which map the LEI to their own identifiers use reasonable methodologies and / or processes to do so accurately.
Description	<p>GLEIF's Certification of LEI Mapping service evaluates the mapping processes and algorithms applied by organizations seeking to link other identification schemes to the LEI.</p> <p>Certification, and the subsequent publication by GLEIF of publicly available, open source relationship files which match Mapping Partner identifiers against corresponding LEIs, eases the process of gathering, aggregating and reconciling counterparty information.</p> <p>When seeking certification, the mapping partner documents the nature and extent of the mapping methodologies and / or processes. This enables GLEIF to review the processes and procedures, validate sample data from the mapping partner and determine if the sample data meets or exceeds GLEIF's pre-determined accuracy and quality criteria. In cases where it does, GLEIF certification is confirmed.</p>
Service Version	v 1.0
Service Target	<p>Availability: GLEIF Website target = 99.9%</p> <p>Processing time: 30 Business Days after the decision to proceed with the Mapping Partner certification</p>
Website	<p>Website path: GLEIF > LEI Data > LEI Mapping</p> <p>Link: https://www.gleif.org/en/lei-data/lei-mapping/gleif-certification-process</p>

Re-Certification of LEI Mapping

Label	Attributes
Name	Re-Certification of LEI Mapping
Tag Line	Re-certification of LEI Mapping accuracy and confirmation of relevant data sample matching algorithm
Description	<p>Annually the mapping partners update GLEIF's understanding of the current status of the mapping algorithms that were verified as part of the initial certification.</p> <p>For areas where significant changes have occurred, the mapping partners document the nature and extent of the changes and how they affected the mapping processing. Supporting documentation must be provided as additional information regarding the change(s) upon GLEIF's request.</p> <p>GLEIF and the mapping partners review the information and assess the overall impact of any changes noted in the mapping algorithm. GLEIF and the mapping partners determine if the changed mapping algorithm still meets the required standard and decide as to whether any remediation action is required.</p>
Service Version	v 1.0
Service Target	<p>Processing time: - GLEIF: 30 business days</p> <p>Update frequency: Yearly on anniversary date of mapping partner certification</p>
Website	N/A

Trigger LEI Management Transfer

Label	Attributes
Name	Trigger LEI Management Transfer
Tag Line	Trigger the porting of all LEI & LE-RD from one local operating unit to another local operating unit or GLEIF in certain cases.
Description	<p>GLEIF triggers a transfer of the management authority for one or more LEIs from the LOU when the LOU is either unable or unauthorized to provide service, or at the expiry of the Master Agreement.</p> <p>In the case that a Legal Entity triggers the transfer of its own LEI, GLEIF and this service are not involved.</p>
